Donn – we are trying to put together the bill for the San Jacinto removal oversight costs. At this point, because we have an AOC for the removal, we can only bill for removal oversight, not the RI/FS oversight (which was under a UAO). Can you identify what of your time, travel, and contract assistance was related to the removal vs. remedial? The time period would start 5/17/10 (after the removal AOC was signed). All of the money reimbursed will go into a special account for the site.

Thank you.
